

Innovation in Health (formerly EIT Health Germany GmbH) aims to build successful and sustainable enterprises that bring effective therapies and innovative medical technologies to the healthcare market. Through tailored programs and services, mentored by experts, and access to our strong network and global ecosystem, we support students, researchers, start-ups, SMEs and companies at all stages and diverse industries on their path to success.

Our team is looking for an:

Intern (m/f/d) for Project Management and Communication

in **full time** to support our **Health Innovation Program Manager** and further **Innovation in Health** activities. The job can be performed in **remote**, however presence in **Mannheim/ Heidelberg** for certain events is required.

Duration:	3-6 month
Salary:	we offer a paid internship from Day 1
Location:	Hybrid (Office: Mannheim and Heidelberg)
Contract:	Full-time

Your role:

As a Project Management & Communication Intern, working closely with the Project Manager of our **Health Innovation Program** and the entire **Innovation in Health** team, you will:

- support Innovation in Health's digital communication around news, publications and events, including content creation for social media, advertisement and our website
- support the team in the organization of projects like our Go-To-Market Academy, Insuring Digital Health and the PhD Transition Fellowship
- support the team in the development, planning and implementation of events
- support the team in writing reports and calls

Your profile:

- Bachelor's degree in preferably communication/journalism/graphic design/ Eventmanagement (but others considered as well), preferably you have already progressed to the last year of your Master's program.
- Hands-on experience in writing copy and/or designing printed material for a diverse audience.
- An affinity for/interest in innovation, entrepreneurship and/or project management in life sciences, medtech, digital health or a similar field
- You work independently and in a structured way in close coordination with our project lead
- Fluent in German and proficient English skills, both oral and written
- Knowledge of MS Office. Hands-on experience with Adobe Creative Suite and WordPress is considered as advantage.
- Based in the Rhein-Neckar-Region or surrounding regions.

We offer:

- A learning opportunity with a deep dive into the innovation ecosystem for Life Science start-ups
- Start-up mentality, fast and flat processes, straight internal communication, non-hierarchical structure and freedom to operate with autonomy
- flexible working hours
- An extensive network in the healthcare and Life Science sector
- Familiar atmosphere within a dynamic team

Innovation in Health is looking for you!
